OBJECTIVE

To secure a position as a Software Engineer, where I can leverage my extensive knowledge and skills.

EXPERIENCE

TEACHING ASSISTANT

Dept. of CSE, IIUC
Teaching experience of
Software Development 1

SKILLS

- Good at problem solving
- Able to work efficiently and effectively.
- Leadership quality to lead a team

TECHNICAL SKILLS

Programming Language:

- C
- C++
- PYTHON

Database:

- SQL SERVER
- MYSQL
- PostgreSQL

Other:

- GIT
- OOP
- Django
- Django Rest API

PROJECTS

HIRE-MATES

A platform where developers can find and hire each other for project assistance. The platform allows hirers to view developers' projects, reviews, and assess their punctuality, knowledge, language fluency, and skills. Developers can also see hirer reviews and communicate via chat.

Technology: HTML, CSS, JavaScript, Python, Django, PostgreSQL

MASTER JI

A Tuition management site where the key feature is guardian can see the previous history of a tutor and come to know his total running tuition and another tuition location.

Technology: Python, Django etc

FINDING FACIAL EXPRESSION BY ACNN

I've developed an ACNN model which achieves best accuracy on the CK+ dataset and real-time posed images. I've deployed this model using Streamlit. In the web app anyone can upload image and find the expression with probability.

Technology: Streamlit, Python, Google Colab

EDUCATION

International Islamic University Chittagong

B.Sc in Computer Science And Engineering

CGPA: 3.36, **Passing Year:** 2024

HSC under **Chittagong Board** in **2018** with GPA **4.42**

SSSC under **Chittagong Board** in **2015** with GPA **5.00**

PROBLEM SOLVING

SOLVED MORE THAN 200 PROBLEMS

- CODEFORCES 100+ problems [_1998](#)
- URI 90+ problems [AAHOSSAaIN](#)
- UVA 20+ problems [ASIF AL HOSSAIN](#)
